

OTTAWA REPORT IS ABSOLUTELY ERRONEOUS

American Overseas Troops Will Be Used As General Foch Deems Best

(By Associated Press)
LONDON, May 13.—The Associated Press was officially informed tonight that the statement sent out from Ottawa last night attributing to the war committee of the British cabinet the announcement that it had been decided not to use the American army on the western front until it became a complete and powerful force was a complete and powerful force.

On Sunday night a report received from London, and given out at Ottawa by the director of public information for Canada through the Canadian Press, limited, stated that the entente allies were so confident of their ability to withstand any drive that might be launched by the Germans it had been decided not to use the American army now in France until it becomes a complete and powerful force.

This information was credited to a summary of the operations on the western front by the war committee of the British cabinet. The report exerted much comment at Washington, for it was understood that the American forces had been placed at the disposal of General Foch, commander-in-chief of the allied forces in France, by General Pershing, the American commander, and it was known that a large number of men now are holding positions in the Montdidier sector of the Somme front, in addition to holding several sectors further south, notably on the heights of Meuse, near St. Mihiel, northwest of Toul and east of Lunville.

Secretary of War Baker issued a denial of the report and said that while all the plans of the war department looked to the development of the American army as a distinct entity, various elements of it now in France are being used freely in accordance with General Pershing's action in placing all American forces under the supreme command of General Foch. Lord Reading, the British high commissioner and special ambassador at Washington, also issued a statement declaring that the report that the American army would not be utilized until it had developed its full strength was directly opposite to information he had received from the British war cabinet.

Echo of Political Controversy
Washington, May 13.—American officers were inclined tonight to characterize reports from London via Ottawa that American troops would not be used until a complete and powerful American army had been developed in France, as an echo of the political controversy precipitated in England by the incident of General Maurice. They could see no other explanation since the statement attributed to the "war committee" of the British war cabinet was promptly repudiated by Lord Reading, British ambassador here and later declared by Secretary Baker in a formal statement to be at absolute variance with the facts as known here.

Lord Reading's statement said he was confident no such announcement had been issued with the knowledge of Premier Lloyd George, adding that the views of the British government which he was transmitting were exactly opposite. Secretary Baker said American troops were now being used in battle and would continue to be used as the supreme commander, General Foch, deemed best.

Since the decision to scatter American battalions or regiments in allied forces was made only because of the cry for man power from both the British and French governments when the German onslaught was battering the lines in Flanders and Picardy, officials here were inclined to find the tone of the announcement now attributed to the war cabinet distasteful. The whole American program in France has been subject to revision by reason of that decision the effect of which was to set aside national pride and the ambitions of American officers of high rank in order to furnish immediate aid. Such sacrifices are not to be viewed lightly it is held or to be accepted or rejected at the whim of the moment in London or elsewhere.

Just how this report may relate to the recent political crisis in England, American officers do not undertake to say. They have a strong feeling that English politics are behind the mystery, however, and look to the English government to correct any misapprehension there may be about the need of American aid.

There are some other questions agitating officials here which the Ottawa report served to bring to light. For one thing, American army officers for the most part are of the opinion that the American army will never reach its highest efficiency under either the French or British army systems. The relations between the officers and men in each army are things peculiar to each army.

Investigating Message.
Ottawa, May 13.—Nothing further has reached Ottawa officially as to the disposition of the United States troops in France. The statement contained in the cable from the British war cabinet and issued by the director of public information here that the Americans were not to be utilized in the fighting line until they had a complete self-supporting army, has not been changed or modified in any way.

Director of public information, Nicholls, said tonight that he had received nothing further in regard to the Americans and that the story was issued as it came to him through the regular official channels. There is a possibility of a mistake occurring in transmission and investigation may clear the point.

BULLETINS

(By The Associated Press)
LONDON, May 13.—British mounted troops after capturing Kirkut in Mesopotamia, pursued the Turks for a distance of 20 miles to the northward says an official statement issued today by the war office. On May 11 the Turks were driven across the Lesser Zab river at Allyn Kupri. The latter place is sixty miles south-east of Mosul.

LONDON, May 13.—Field Marshal Haig's report from headquarters in France tonight says: "The hostile artillery developed considerable activity early this morning north of the Serre and has been active during the day on the southern portion of the British front and in the sector north of Kemmel. There is nothing further of special interest."

SCHODACK LANDING, N. Y., May 13.—The Buffalo Express from New York to Chicago was wrecked here late tonight. A German war plane was reported to have been killed and a large number of passengers more or less seriously injured.

WITH THE AMERICAN ARMY IN FRANCE, May 13.—By the Associated Press.—Improved weather conditions led to increased activity in the Toul sector today. Many American Toul sector today. German war planes were working over the enemy lines and observation balloons were up for the first time in many days. The American artillery last night and this morning directed a heavy and harassing fire on German rear areas where it is known that troops are billeted and it is suspected others are moving.

SAN ANTONIO, Texas, May 13.—Two young men and two girls arrested today by local authorities at Floresville, Texas, were brought here tonight and held for federal authorities. According to a despatch from Floresville, a confession was made by members of the quartet that they are all Austrians and were on their way to Mexico. All were well dressed, well supplied with equipment and were in a new automobile when arrested.

WASHINGTON, May 13.—Led by General Pershing's fifty "verandah" and 200 wounded French, British, Canadian and Australian officers and privates, some 7,500 speakers are to bring the Red Cross drive for the second fund.

JURY BEING SECURED FOR PRAGER TRIAL

Three Jurors Tentatively Accepted by the State.

(By The Associated Press)
Edwardsville, Ill., May 13.—Twenty-five talesmen were examined this afternoon at the opening of the trial of eleven men charged with murder in connection with the lynching of Robert Paul Prager at Collinsville, Ill., April 5. Three were tentatively accepted by the state.

Twenty two of the twenty five examined said they had read so much about the lynching in the papers that their minds were made up. The selection of a jury is not expected to be completed until tomorrow night.

Examination of talesmen proceeded late in the day when Louis Bernreuter denied a motion made by the defense to quash the indictments on the ground that Charles Crumner, one of the indicted, had been a witness before the grand jury. The defendants, each wearing a red, white and blue rosette in their lapels, laughed and joked with friends while going into the court room and during the several recesses. About thirty women were among the large crowd that attended the trial.

The defense has not announced what line of defense will be made.

AN UNUSUAL PLANT.
A Chinese paper plant, scientifically known as the bougainvillea, in the window at Heintz & Sons' floral store, attracted a great deal of attention yesterday. The foliage and the flowers of this plant are both brilliant in color. The plant grows wild in Mexico, Arizona and some parts of California, so that a number of Jacksonville people have seen it in their travels. Some slips from the plant are shown in the Journal office window.

ENTERTAINED FRIENDS.
Miss Grace Tilton entertained a company of friends at the home of Mr. and Mrs. James Wall on West College avenue, Monday evening. Several hours were spent in playing of games. Excellent refreshments were served and the occasion was indeed a pleasant and joyous one for those present.

COUNT MINOTTO IS ARRESTED AS ALIEN ENEMY

Swift's Son-in-law is Taken Into Custody On Presidential Warrant

(By Associated Press)
CHICAGO, May 13.—Count James Minotto, son-in-law of Louis F. Swift, the packer, was taken into custody here today by Deputy United States marshals two weeks after his arrest was ordered on a presidential warrant.

The count, who successfully defended himself two months ago against deportation proceedings, now is preparing to fight internment under the presidential warrant. He is at liberty on \$50,000 bond.

On April 30 the order of arrest was telegraphed from Washington to Los Angeles. But the count had left his winter quarters there. It was learned that he was expected in Chicago May 4 and Marshal John J. Bradley was notified to arrest him under regulation No. 1 of the President's proclamation regarding German aliens.

The marshal today learned that the count was at his father-in-law's Lake Forest estate and two deputies were sent there. They were told by a Japanese servant the count had gone for a ride. The deputies retired to the lawn and several times stopped saddle horses to inquire if the rider was the count. After sometime they returned to the house and insisted that the servant make sure the count was not in the house and one of the deputies said he would accompany him. Soon the count appeared in riding costume and explained that he was about to go for a ride.

The count was taken to the federal building where his father-in-law and legal counsel met him. A petition for a writ of habeas corpus was immediately filed in his behalf and Judge Carpenter set the hearing for May 20.

The count, also admitting that he was born in Berlin, in a statement said: "I am an Italian citizen and am registered as such in Venice. The Minottos are an old Venetian family and the name appears in the official book of the Italian nobility. I am an Italian citizen, but a true lover of the United States."

SPECIAL BRICK NOT AVAILABLE NOW

If West State Residents Insist On Special Type Between Rails Completion of Pavement Must Be Delayed Several Months.

The public generally is greatly relieved to find the West State street pavement completed—that is, all except between the rails of the street car company. It will be remembered that brick were laid inside the rails for a greater part of the distance from Church street to Westminster and then as objections were made by some property owners, as to the type of brick, the work was suspended. The status of the matter now is that the space between the rails must be left unpaved for a number of months to come—nobody knows how long—unless the property owners are satisfied with the type of brick used in that portion of the track which has been paved.

A special "nosed" brick is manufactured for use immediately next to the rail. There are some of these brick in possession of the Galesburg company but they will not sell them for this job because the other brick were not purchased from them. A Springfield yard makes the type of brick desired, but has not in stock and the kilns are in such condition that none of the brick can be made for several months to come.

One reason that it is so difficult to get these brick is said to be because their use and manufacture is being discontinued as the other type of brick has been found to give satisfactory service and is much more easily obtainable. The original specifications for the pavement call for this special type of brick. With the hope of hurrying up the job and getting the public improvement board permitted the use of the larger brick after having investigated pavements elsewhere and having found that their use was satisfactory. Then came the objection from a number of property owners and the use of that type of brick was stopped. As already indicated, the question is now whether the property owners prefer to have the street in its present condition for a number of months or will permit the use of the brick available for the work.

BREAD TICKETS A POSSIBLE NECESSITY

Chicago, May 13.—Bread tickets as a war time measure in Chicago are necessary according to sentiment among 1,000 Master Bakers of this city in session here today. Harry A. Wheeler, state food administrator announced that the 80 per cent of wheat flour allowed bakers between May 13 and June 1, will be reduced for the month of June to 70 per cent of the amount allowed for the same month last year.

RED CROSS QUARTERS ALL IN READINESS

Hayden Building Beautiful with Emblems and National Colors—Work Will See Organization for Campaign Complete—Optimism Rules.

Red Cross headquarters were opened yesterday in the Hayden building on South Sandy street. Two spacious rooms are there available for the committee and workers and Chairman Crabtree with an efficient force of volunteer workers, had the room in readiness for a meeting last night. Members of the executive committee and various department heads met for a preliminary conference and there will be organization meetings practically every day this week in preparation for the big drive for \$45,000 which will begin next Monday. More properly speaking it will begin Sunday because that will be Red Cross day in the churches and all the pastors have with enthusiasm agreed to the plan of presenting the Red Cross cause from their pulpits.

The People Ready to Give.
The south room will be used for offices and the north room for the committee and general conferences, and for any noontime luncheons. "This campaign is going to go with a swing and a vim," said Chairman Crabtree, last night. "I can feel right now that we are going to get this money easily within the specified time. You can occasionally find a critic or an objector to other wartime enterprises but you can find no one who has anything except good to say of the Red Cross work. The people fully realize the need. They know that the Red Cross is doing the work in their work. They have the money and they are fully ready and willing to support it."

M. F. Dunlap, chairman of the Morgan county Red Cross organization, is fully as confident as Mr. Crabtree in anticipating the "over the top" success of the Morgan county campaign, for the city and country workers are already working with each other in their enthusiastic preparations for the work. In the Morgan county campaign the people here will be keeping step with other counties in the state and with the other states of the union in raising this fund of \$100,000,000.

There was reason for raising the first big Red Cross fund, and from an American standpoint that reason has been multiplied many times as thousands upon thousands of U. S. soldiers have entered the war. And there are other countries less thousands going in before this fund has been expended, and they will share in the beneficent relief that it will spread.

The Red Cross Spirit.
There are red crosses on the globe and on the boulevard lamps in front of the headquarters and inside the rooms a few hours' work effected a transformation from bare walls to an artistic arrangement of posters, Red Cross emblems and national colors. One of the most beautiful and suggestive of the posters is that which depicts a Red Cross nurse with a child in her arms and below is the legend: "The greatest mother in the world." An appropriate motto is a part of another poster and reads, "Think what you can give, then double it." Still another refers to possible contribution with this thought, "A life may depend on what you can give. Do you dare do less?"

Still another poster, artistically drawn, brings out strongly the relief work the Red Cross does in canteen and hospital and for the refugees. The work of decoration was handled very competently by Mrs. E. E. Crabtree, Arthur D. Fairbank, Herbert Smith, R. F. Thompson, William Floreth Jr., James Barnes and some other workers who happened to visit the rooms. Henry Muehlhausen lent some streamers for decorations and J. J. Mallen did part of the decorating with "Spirit of 76" and U. S. Flag paper, and Mr. Thompson also made a contribution of decorative paper of appropriate design. Altogether the quarters are exceedingly attractive.

WILSON UNABLE TO ATTEND.
Washington, May 13.—President Wilson today wrote the Brotherhood of Locomotive Engineers he was unable to attend their convention at Cleveland. It is expected however, that Director General McAdoo will speak before the convention at a later date, probably making some important announcement of the government's labor policy toward railroad workers.

PASSAGE OF THE OVERMAN BILL IS FORECAST

Administration Leaders See Success of Measure in the House Today

(By The Associated Press)
WASHINGTON, May 13.—Passage by the house tomorrow of the bill proposing blanket authority to the president to reorganize government departments, was forecast by administration leaders in congress late today after four hours debate.

Republicans joined Democrats in support of the bill in today's debate, the opposition contenting itself largely with interruptions to speeches. Chairman Webb of the judiciary committee told the house the opposition came from the same members who wanted a war cabinet last year.

Representative Gard of Ohio, Democrat, speaking in support of the measure told the house the bill gave no more real authority to the president than he has under the existing law, but merely proposes additional powers for co-ordination. Representative Longworth, of Ohio, interrupted to express the belief that the enactment of the bill would give the president right to transfer the powers of the war finance corporation to the secretary of the treasury and to give the secretary authority to spend all of the fund appropriated in that act.

Representative Gillett of Massachusetts, acting Republican leader said he believed it would give the president the right to transfer the functions of the attorney general to the chairman of the war industry board.

SOLDIER TESTIFIES IN I. W. W. TRIAL

Is Promised Protection from Authorities if They Evade Selective Service Act.

Chicago, May 13.—By a Franklin, N. J., testified at the trial of 112 I. W. W. today that a representative of the organization promised him and his fellowmen protection from the authorities if they evaded the selective service act. Byra's testimony formed a link in the chain of evidence by which the government seeks to prove that a nation-wide conspiracy to disrupt America's war plans was entered into by leaders of the organization.

Private Byra testified that John Avilla, a defendant and organizer of numerous strikes in New Jersey, Massachusetts and New York while in Franklin, furnished him a Boston, Mass., address. "He said to report at the address and I need have no fear of military service," said Byra. He could not recall the address.

Defense counsel sought to show that the testimony was part of a conspiracy against Avilla which it was declared resulted in him being hanged by a mob in Franklin last summer until he was nearly dead.

Parts of correspondence from Avilla to William D. Haywood and other officers relative to progress in strikes were read into the records over objection of the defense. George F. Vandever, chief counsel for the defense asserted that some of the letters were not accompanied by proper evidence of their origin.

Marie Coppens, stenographer for Avilla at Boston, Mass., identified letters submitted by her reports to Haywood.

"When I was put out of Fall River a big fire broke out in the mills," Avilla notified Haywood, early in 1917.

URANIA MEMBERS STILL BUYING STAMPS.
At the regular meeting of Urania No. 24, I. O. O. F., held Monday evening, some of the members formed a club and purchased War Savings stamps. A club of ten was formed and for the purchase of \$25 each but one member took \$50 worth. Then six members purchased \$10 worth each and one member took \$5 worth thus making a total of \$340. At the meeting it was decided to exemplify the initiatory and three degrees Wednesday evening, the candidate being one of the men in the next quota of men to leave for camp. Work will begin promptly at 7 o'clock. The committee in charge of arrangements will serve light refreshments.

ENGLISH CHAMPION ARRIVES.
Denver, Colo., May 13.—Ted Lewis of England, welterweight boxing champion arrived today for his twenty round bout here May 17 with Johnny Tillman of Minneapolis. The fight is for the welterweight championship of the world.

TO ATTEND WEDDING.
Miss Caroline Kramer left yesterday for the wedding of her sister, Miss Retha Sheppard, which will occur at Christopher, Ill., Wednesday. From there she will go to her home in Keil, Ill., where she will spend a few weeks.

WAR SUMMARY

News of Activities On Various Battle Fronts in Summarized Form By Associated Press.

Germany's resumption of the gigantic offensive against the allies on the west front has not yet materialized. In various sectors there have been local operations, which have no bearing on the situation as a whole. But along the entire front there is a quiet that might be encouraging, were it not for the fact that the Germans are known to be moving up men and materials for a new move in the mighty drive launched March 21.

Field Marshal Haig's report makes special note of activity by German artillery north of Serre. This little town is situated behind the Tonic line north of Albert and marks the apex of a triangle, the base of which is the line between Hebuterne and Buquoy.

For several weeks military experts have been watching developments in this particular region because it is the logical point from which the Germans may be expected to launch a great turning movement against the Arras sector. During the early days of April when the allies made a final stand on the line which they at present hold, the Germans centered their fiercest drives on Hebuterne and the wooded hills to the south and southwest.

They failed to advance further and later lost ground to the allies at this point.

The country to the west of Hebuterne is quite hilly, with many steep ridges which afford admirable defensive positions. To the north and northwest, however, the country is moderately level, with long undulating ridges which might be stormed readily by heavy masses of troops.

Field Marshal Haig, mentions, too, considerable artillery fire to the north of Kemmel, but this is a region where the cannon of both sides have been roaring for weeks. The southern portion of the British front has also been under heavy fire from the enemy guns and this may indicate that the Germans are getting ready for a new effort to reach Amiens. On the rest of the western front the reports tell nothing of interest as revealing the true situation. Since the Italians captured Mont Corno on Saturday morning the Austrians have tried in vain to regain this commanding peak south of Asiago, but have met by stern resistance.

In Mesopotamia, the British forces have progressed further up the Tigris and have captured Kirkut, pursuing the Turks for twenty miles to the northward. The British now are sixty miles east of the important city of Mosul, the site of the ancient city of Nineveh and the crossing of numerous caravan routes.

Krainska reports tell of the capture by the Germans of Jowagor, Empress Maria Feodorovna and Grand Dukes Nicolaievitch and Alexander Michaelovitch, who have been living in straightened circumstances in the seclusion of their estate in Crimea, which is overrun by the Germans.

Emperor Charles of Austria, accompanied by his foreign minister and military leaders has called on Emperor William. The report of the meeting says that there was "complete accord" in their discussions of the present and future relations of the countries.

The Ukrainians are said to be very cool toward the new government set up by the Germans in that country, while the Lithuanians are demanding the absolute independence of their country with a monarch chosen from some neutral state instead of a German prince which has been said to be the program there.

SEVENTH DISTRICT OVER SUBSCRIBES BY 33 PCT.

(By The Associated Press)
CHICAGO, May 13.—The total Liberty Loan subscriptions in the seventh federal reserve district amounted to \$608,655,450 it was officially announced today by J. B. McDougal, governor of the federal reserve bank of Chicago. The district's quota was \$425,000,000 which was oversubscribed more than 33 1-3 per cent. The result by states:

State	Subscription	Pct

Indiana	53,770,000	70,734,250 131.5
Michigan	71,505,000	117,160,050 164.8
Wisconsin	75,600,000	97,923,000 129.5
Totals	45,600,000	74,789,950 164.0
	\$425,000,000	\$608,655,450 143.2

Final figures for Chicago will not be announced for a day or two.

RETIRED PLAYERS BARRED.
(By Associated Press)
Cincinnati, O., May 13.—All major and minor league baseball players were notified today by the National Baseball commission to notify their clubs that all voluntarily retired players participate before his restoration to good standing are illegal and hence cannot be included in the record of its league's championship games.

The notice was issued after the commission's attention was called to the fact that players under reservation by major league clubs as a voluntarily retired player, have played with minor league teams.

NECESSARY TO INCREASE R. R. RATES 25 PCT.

Railway Operating Expenses \$750,000,000 More Than Last Year

(By The Associated Press)
WASHINGTON, May 13.—Estimates made today by railroad administration officials maintain that an increase of at least 25 per cent in freight and passenger rates will be necessary this year to meet the higher cost of fuel, wages, equipment and other operating expenses, now set at between \$600,000,000 and \$750,000,000 more than last year. Recommendation that rates be raised by approximately this percentage has been made to Director General McAdoo by his advisers. He is expected to act within the next six weeks and to put increases into effect immediately. Shippers will be permitted to appeal to the interstate commerce commission under the railroad act and finally decision will be with President Wilson.

Such an increase as proposed is larger than any previously asked by the railroads.

Rate experts of the interstate commerce commission and railroad administration officials are at work on the schedules.

YANKS KEEP WHOLE GERMAN LINE GUESSING

Alarm Clock Used to Draw Tentation Machine Gun Fire—Capture Street Signs in Enemy Trench.

With the American Army in France, May 13.—By The Associated Press.—How an American alarm clock kept the whole German line guessing and caused useless expenditure of large quantities of machine gun and rifle ammunition all one night was related today.

The Americans had been trying for some time to draw the fire of certain enemy units.

"Leave Fritz to me," said a happy-faced American, who, putting an alarm clock under his arm disappeared into No Man's land under cover of darkness and fastened the clock to a wire. Soon the alarm rang whereupon the Germans opened fire. The wire had been so arranged that the clock continued to ring intermittently and each time drew a violent fire from the enemy. Meanwhile the Americans rested in their trenches and enjoyed a hearty laugh.

An American officer turned the tables nicely on the enemy recently. The Germans had retired during a bombardment to concrete dugouts behind their trenches leaving the first three lines to one man who went around setting off flares, so as to create the impression that the whole front was alive with Germans. An American patrol leader went over and discovered the ruse. He killed the one German invaded the trenches and gathered dozens of street signs which the Germans had posted, returning to his own lines with the signs tucked under his arm.

COMMITTEE CHAIRMAN WILL MEET TODAY.
T. W. Callihan, chairman of the Centennial committee for Morgan county has called a meeting of the chairman of the various committees recently appointed for the purpose of talking over plans and finding what each committee has in mind. The meeting will be held in the basement of the Ayers National bank this morning at 11 o'clock and a full attendance is desired.

DISTRICT FEDERATION MEETING OPENS TODAY.
The meeting of the Twentieth district Federation of Women's clubs will open at 9:30 o'clock in Grace church. The program of the two day's session has previously been published in the Journal.

The program today will be of more than ordinary interest because of the fact that Miss Annie Hinrichsen is to make an address at the morning session. In the evening Adjutant General Frank S. Dickson and Dr. George Palmer will be on the program.

Mrs. Gordon Wilson will arrive from Chicago at 5:10 this afternoon. Miss Hinrichsen arrived in the city Monday afternoon and is quartered at the Pacific hotel.

WEATHER INDICATIONS AND TEMPERATURES.
Illinois—Fair and warmer Tuesday; Wednesday partly cloudy, cooler near Lake Michigan.

The Americans are endeavoring to convince the Germans they are on the firing line.

The greatest agency of mercy the world has ever known, the Red Cross, appeals to you for financial help.

The campaign is not for Red Cross memberships, but for your contribution to a cause that appeals to every heart in this country.

These are times that suggest constant preparation. Universal military training is the need of the future. It has been proposed that all young men near military age form into companies or organizations, in order to be prepared for emergencies.

An exchange remarks that the fact that twenty millions of American people invested in the third Liberty Loan discloses the spirit of the American people, indicates their willingness to furnish the government with all that it may need for the prosecution of the war. All that the people wish, is that all this money be wisely and economically used, and that more profiteers may not be permitted to enrich themselves out of this vast total contributed so willingly by the people.

The Red Cross has asked people to break a chain letter scheme inaugurated to assist a certain French hospital. And after an interview with the United States district attorney in New York Lord and Lady Aberdeen have agreed not to make further appeals for a certain pet charity of theirs in Ireland for which they have secured \$10,000. If you can't give to anything else, give to the Red Cross. It's safe.

Draft age may be raised to forty years. They may be needed before the war is done.

The German language can never be taught again in that state; they will not be shown again by the Kaiser.

The proof that something is wrong in aircraft production is that we haven't the aeroplanes.

ARE YOU HELPING?

Are you helping to the greatest extent of your ability in the great war for Humanity? Have you done everything in your power to insure a victory for America and America's cause? Have you made provisions to help the Red Cross in its drive?

The Red Cross is not planning a campaign this time for members in Morgan county. It is planning a campaign for one hundred million dollars. It is planning a campaign that will insure the perpetuation of the work it has been doing and is doing at the front, in the camps, in the cities, in the very homes of people.

The money you give the Red Cross is well spent. It insures the life, perhaps, of a man who is fighting for his country. The dollar you give may be enough to buy materials to bring one soldier back from the jaws of death where he has gone that we may live in peace.

This campaign must have the support of the people of America. The Red Cross is a thoroughly democratic institution. It is an organization after the ideals of the American. It is worthy, yes, it is a thousand times worthy of this great country of ours, and we must—we will support it with the last dollar that rests in our pockets.

The Red Cross is taking some of the horrors out of this horrible war. It is making life worth living to some poor fellows who have been shattered past all recognition. It is bringing them back from a living death, thru which they must go unless their torn and bruised forms and faces

are patched up into a semblance of human form.

Give all you can to this worthy institution. The world is looking to us to prove that we are a democratic people, and that we are in this war for the sake of Humanity. Will we not then, support Humanity in the form of the Red Cross?

We know we will give our support. We know that we cannot fall when the Red Cross calls. It is a duty to our country—the boys "over there." It is a sacred duty which we owe to ourselves.

RIPPLING RHYMS

MAN POWER.

They're talking now of drafting men whose years have numbered fifty, and hope springs in my breast again, the prospects now seem nifty. Before this beastly war is done, fool rules will go a-skiting, and loyal gents who weigh a ton may go and do some fighting. They've barred me out because I'm fat and deaf and broken winded; and rules responsible for that I hope will be rescinded. When first we broke in to the game, Apollon's words demanded: "We do not want the old or lame"—the officers were candid. "No man is fit to chase the Hun unless he's like Narcissus." And so I dropped my sword and gun, and went home to the missus. "They're mighty choice," said Jane, "my lad, to turn down beefy writers; but wait a while, and they'll be glad to get such deadly fighters." And now it seems that Jane was right; the sergeant's growing thrifty, and he admits a gent may fight who gives his age as fifty. And pretty soon the fat and bald, the spavined and the sweenied, will from the paths of peace be called, by Uncle Sam subpoenaed. For paths of peace I care no hoot, I burn with martial ardor; I long to slay the kraut, red Teut, and confiscate his larder. Let down the bars! Let go every skate who wants to fight go fighting, the he may score three hundredweight, as I do at this writing!

VETERANS' DAY SERVICE HELD AT GRACE CHURCH

Event was More Than a Success—Announced Program Rendered with Pleasing Effect—History of Methodism in Illinois Given.

The Veterans' Day service at Grace church Sunday was of more than passing importance. The program as announced in the Journal Saturday was rendered with pleasing effect. The pageant, "Illinois Gives Greeting," written by Mrs. Grace Jewett Austin, was beautifully and impressively rendered by Misses Beulah McMurphy, Mamie Kennedy and Florence MacKenzie and Messrs. Raymond Walker, Wilder Towle, Karl Hill and Wilbur Rogers. Mrs. E. D. Herald supervised the costuming and rehearsal. The address, "A Hundred Years of Progress," written by Governor Lowden, was given in a masterful manner by Charles Capps. Miss Lillian McCullough's interpretation of "The Veterans," by Rev. Alfred J. Hough, was very impressive. The music was a notable and pleasing feature of the service.

Dr. Madden said that combining the centennial of Illinois and the annual Veterans' Day was a happy thought, for the history of the state and the life work of the pioneer Methodist preacher were inseparably interwoven. After speaking of first things in Illinois, he cited these facts in regard to early Illinois Methodism:

Beginnings of Methodism in Illinois
In 1785, two years after the Illinois country was ceded to the United States, Captain Joseph Ogle, born in Virginia, converted by the Baptist preacher, James Smith in Kentucky, a Revolutionary soldier, settled in the American Bottom and became a Methodist.

As far as is known, the first Methodist preacher in Illinois was an itinerant, Joseph Lillard, who formed a class in St. Clair county and appointed Captain Ogle its first class leader. The first Methodist preacher to settle in Illinois was Hosea Rigg, who settled in St. Clair county in 1798. The first Methodist Missionary to the territory of Illinois was Benjamin Young, who came in 1804 and was settled in 1806 by Jesse Walker, the great Methodist pioneer of the West.

Three names are written indelibly upon the pages of our early history. Jesse Walker, the itinerant missionary, preacher, was to early settlers in Illinois and Missouri what Daniel Boone was in pioneering as a settler. He was always alert, always seeking the latest comer, and wherever the settler was found, there the advantages and the blessings of religion were presented.

Peter Cartright, seventy years a Methodist preacher, fifty years a presiding elder, member of twelve General Conferences, served at least one term in the Legislature of Illinois, defeating Abraham Lincoln, a genuine patriot, a tireless itinerant, a sagacious counselor, an unfailing friend, an incomparable companion, rough and hardy as an oak, but with women and children as tender as a woman, was one of the chief founders both of the state and of Methodism.

Peter Akers, the Chrysostom of the West, a prince among the clergy of all denominations, and always the peer in intellect, learning and force, with the best.

Exponents of a Mighty Host
These pioneer preachers and the faithful souls they gathered in the early days were the forerunners of that ever increasing number who now constitute the mighty hosts of Methodism in this great state.

The Methodism of Illinois records in its membership 276,000 persons, which, if we include the colored and foreign-speaking membership would be increased to over 300,000, and represent a constituency of three-quarters of a million souls. She has 1,206 preachers who are members of annual conferences, a Sunday school enrollment of 311,634, and Epworth League enrollment of 48,301. Church property to the extent of 1,779 churches valued at \$15,990,875, and 891 parsonages, valued at \$2,616,900. Thru her colleges and universities, hospitals, orphanages, homes for children and the aged, and other institutions, the church is rendering a full ministry to the state and the world.

Dr. Madden stated that the purpose of Veterans' Day was to honor and care for the "retired preacher" and his family and to locate and care for their graves.

Guests of Honor.
Rev. A. P. Hillierby occupied the seat of honor on the rostrum and Dr. Madden paid the aged and highly esteemed member of the older guard a merited tribute. Brother Hillierby was born in Driffield, Yorkshire, England, from Markham yesterday.

The Land of Promise

Would you marry for a home? What would you expect your life to be? Hades on earth? Or would you fall in love with the man and live happy ever after? The "human interest" element in "The Land of Promise" is exceptionally marked and there are several entirely new twists in the plot.

5c and 10c, Plus 1c War Tax

Coming Wednesday—Fox Feature, Tom Mix in "SIX SHOOTER ANDY"

July 10, 1832. He is a remarkably well preserved man for 86 years of age. Mr. Hillierby came to America in 1855; was received on trial in the Illinois conference in 1856, 62 years ago at Quincy, by Bishop Simpson; was ordained deacon by Bishop Morris in 1858 at Grigsbyville; was ordained elder in 1860 by Bishop Baker in this city. By reason of impaired health he was granted a location in 1882 at the conference held at Lincoln. His certificate of location is signed by Bishop H. W. Warren. While stationed at Tolono in Champaign county in 1859, Brother Hillierby organized the first Methodist class in Rantoul and preached at the station of the Illinois Central railroad. Rantoul is now a town of 1,500 inhabitants with a Methodist church and parsonage worth nearly \$5,000, and there are a number of other strong churches within the territory where Brother Hillierby did pioneer work nearly 60 years ago.

Other guests of honor were Mrs. Wm. McKendree McElfresh and her daughter, Mrs. George W. Blair, Mrs. W. H. De Mott, Misses Della Dimmitt and Amy DeMott, Mrs. Preston Wood, Sr., who was unable to be present, was graciously remembered.

An In Memoriam Pastor
Dr. Madden read the names of 35 ministers, 22 of them "itinerant" and 13 "local" preachers, who are buried in the cemeteries of Jacksonville and vicinity. The inclement weather and the mass meeting at the opera house prevented the decorating of these graves Sunday afternoon, as had been intended. The fact that a Methodist preacher lies buried under the middle of Mound road a few miles west of the city and even his name now forgotten, that the grave of Dr. Milburn, chaplain for years of the United States senate and a man of national renown, is without even a marker, and that the grave of Rev. Wm. H. Askins, who died in this city Aug. 6, 1832, is unknown, shows how derelict the church has been in caring for the graves of its ministers. This list may not be complete and corrections and additions will be welcomed. Some of these men were noted leaders in their day and all were valiant servants of the church. Their names should be inscribed on its records, their memories cherished for their works' sake and their graves decorated annually.

Itinerants.
Members of Illinois conference buried in Diamond Grove cemetery and date of deaths: John M. Lane, Aug. 6, 1867; James H. Dickens, Sept. 25, 1882; Americus Don Carlos, Feb. 23, 1883; Dr. Peter Akers, Feb. 6, 1886; W. Phillips, Jan. 17, 1888; Aquila B. McElfresh, Jan. 15, 1891; Dr. W. H. Milburn, April 10, 1903; Greenbury R. S. McElfresh, Dec. 12, 1903; M. Avis Hews, March 19, 1904; Joseph Winterbottom, March 27, 1904; John C. Sargent, June 3, 1905; Wm. McKendree McElfresh, March 23, 1909; Dr. Wm. Fletcher Short, Aug. 29, 1909; Preston Wood, Jr., March 18, 1916.

Those buried in East, or Jacksonville cemetery and date of death: J. A. Gunn, June 1, 1868; George Rutledge, Sept. 7, 1871; W. D. R. Trotter, July 25, 1879; Wm. J. Rutledge, April 15, 1900; Asa S. McCay, March 23, 1903.

In Hebron cemetery: James P. Dimmitt, Oct. 29, 1855.

Members of the Southern Illinois Conference: James C. Finley, 1855, buried at Island Grove; J. L. Wylder, Oct. 9, 1912, Diamond Grove.

Local Preachers.
Local preachers and where buried. In Diamond Grove: William Stribling, John McElfresh, Dr. W. H. De Mott, Wesley Clampitt. In Jacksonville cemetery: B. G. Snow, Horace Spaulding, Joel Goodrick, John Mathis, John C. Hamilton, Holland Reid.

In Hebron cemetery: Vickerman Brecken, John Sinclair.

In Providence cemetery: John M. Gibson.

The service closed with this: **Declaration of Allegiance, By the Congregation.**

In the presence of these people and before Almighty God I declare my allegiance to my country and its flag and promise to do all in my power to help establish Christian Democracy and enduring peace throughout the world.

I pledge allegiance to the Cross of Jesus Christ and renew my solemn vows to support the church in all its efforts to make the kingdoms of this world the Kingdoms of our Lord and Savior Jesus Christ.

And the benediction by Rev. J. P. Hillierby.

NOTES FROM THE
COUNTY AGENT'S OFFICE.

The seed house that will get the farmers' patronage in the future will furnish seed corn, butted, tipped, shelled, fanned, graded and guaranteed as to purity, germination, and acclimatization. The oats sent out will be cleaned, graded, treated for smut, and guaranteed as to variety and germination. Alfalfa and soy beans might just as well be sold already inoculated for planting. Seed of the kind indicated will always have a ready sale. An enterprising farmer, in a neighboring county, has sold a lot of soy beans in this county. This year he sent them to some of his customers inoculated. It was a pleasant surprise that far from having an eye for business, and will get it from satisfied customers. A word to the wise is sufficient. These are business pointers.

The amount of pure-bred livestock in Morgan County is entirely too small. A better quality of breeding stock on our farms will not only benefit the local farmers, but will attract the buyers from a distance as well as fat pocketbook. The man with pure bred horses, cattle, sheep, hogs, and poultry has something to be proud of. The purebred stock will do everything that the scrub, crossbred and grade stock is doing, and more too. It advertises the farm and the county. Let us put Morgan County on the map for high grade livestock. The only source of supply at present are the young men enrolled in the Boys' Reserve. These are the pick of the city high school boys. They are fine manly fellows willing to work for what they earn in comparison with other farm laborers. Practical farmers have passed on all of these young men. All of those lads have taken practical work in the handling of horses and farm machinery. An effort is being made to place three of these in every township. If the farmer with whom one is placed does not need one all of the time, it is planned to let him work for some one else a part of the time. Give the boys a chance. Get one now.

Drs. Huggins and Bryan, of the U. S. Department of Agriculture, were business callers at this office last week. These men have headquarters at Springfield. They are stationed there for the purpose of helping to control hog cholera and other animal diseases. These diseases cause an enormous loss to the farmers of this country and the U. S. Department of Agriculture is trying to prevent this loss. These federal veterinarians will cooperate with our local veterinarians. If the local veterinarians or the farmer for whom he works wants the opinion of some one else in diagnosing a disease, the services of these men are available without any expense to farmer or local veterinarian. The U. S. men are kept so busy that they cannot always be gotten quickly, but they will certainly come as soon as possible when called. The farmers and local veterinarians are advised to make frequent use of these men. Let us work together and save the stock.

NOTICE!

One per cent of all of our collections from our entire system for the month of May on all accounts made prior to May 1st, will be contributed to the RED CROSS. This contribution to go in the local Red Cross chapter where the collection is made. This is an opportune time to help the Red Cross, whose needs are more pressing than ever before on account of the number of soldiers that we are sending over the seas. La Crosse Lumber Co.

MISERY LOVES COMPANY.

Pana, Ill., May 12—Chief of Police Joseph Ryhill has tendered his resignation to Mayor H. N. Schuyler to become effective May 30. With the saloons voted out and the city revenue gone with which to pay the members of the police force and no funds in the police fund and the banks refusing to carry city script, Chief Ryhill states that he does not take very kindly to serving the city with only "promises of pay" in the future. It is expected that other members of the police force will resign, as well as street and waterworks employees, as a similar dilemma faces them.

JOHN CARL WRITES
FROM CAMP DIX

Letter to Mrs. Weber Where He Had a Room for Many Years

John Carl who recently went to Camp Dix, New Jersey writes Mrs. J. C. Weber a brief letter concerning the camp. Mr. Carl for eight years had a room at the home of Mr. and Mrs. J. C. Weber and both regard him very highly. When he departed for camp he left all his effects in his room and they will be left as they are until his return. The letter follows:

Camp Dix, New Jersey, May 10, 1918

My Dear Mrs. Weber: I have been here about a week and I thought it was about time to write a few lines to you. I like the camp very much. It is better than I thought it would be. It is 14 miles square and there are about 50,000 to 60,000 soldiers in the camp. About 10,000 came in last week. They are sending lots of the boys across all the time. They usually get six to eight weeks training and then they send them across. My shaving outfit is very handy and useful. You don't know how much I appreciate your gift.

Well, I will close now. Give my regards to Mr. Weber.

Yours Respectfully, John Carl, Y. M. C. A. No. 2, Camp Dix, New Jersey.

BOARD OF EDUCATION MAKES APPOINTMENTS

All Teachers are Renamed—In-crease in Salaries Asked—Mat-ter Referred to Finance Com-mittee—President Lippincott Presents Communication on New Building.

The board of education met last evening in adjourned session and trans-acted a great deal of important busi-ness. It was decided to ask for new bids for removing the high school building. All present teachers were re-appointed. President Lippincott pre-sented an important paper regarding plans and specifications for a new high school building and it was re-ceived with approval and adopted as the opinion of the board. The presi-dent was instructed to investigate the matter of securing more ground by vacating some streets. A change in the rule for admitting primary pu-pils was adopted.

THE PROCEEDINGS
The board met with all members present, President Lippincott in the chair. J. M. Vasconcellos, the lowest bid-der for removing the wreck of the high school building, was present and said he had been misinformed regard-ing the cost of indemnity insurance and would have to increase his bid \$200.

It appeared to the board that the only fair thing to do was to retrans-act a great deal of important busi-ness. It was decided to ask for new bids for removing the high school building. All present teachers were re-appointed. President Lippincott pre-sented an important paper regarding plans and specifications for a new high school building and it was re-ceived with approval and adopted as the opinion of the board. The presi-dent was instructed to investigate the matter of securing more ground by vacating some streets. A change in the rule for admitting primary pu-pils was adopted.

thought. While, in my judgment, this community has never had a bet-ter prepared body and rarely a body so well prepared to take up the mat-ter of erecting a High School Build-ing, yet the avocation and profes-sion of the several members make certain that they are not fully versed in school architecture.

You have doubtless met and will continue to meet individuals who are disposed to urge that this or that person be given preference in the work we have to do. While this is un-doubtedly a perfectly element, it is not the kind of thing which I refer to. I imagine we want to do is to reach a conclusion that shall serve the in-terests of the district, not of individ-uals. On the other hand, I imagine, there will be no disposition to throw anything in the way of any local person. Everything should, and should be, open and free to local people who can furnish the best.

It is in this spirit that I recom-mend that we as a board first decide what, in general, we want in the way of a high school building. It is to say, whether we want one front three or more stories, whether one, two, or three or more stories, whether a trap or fire proof building; whether to accommodate 400 or 600, now, and whether the plan should be such as to be of addition in future to accommo-date 800, 1000 or 1200; whether the building should contain an assembly room and if so, whether that assem-bly room should be planned to accom-modate a minimum of 500 persons, the present proposed future capacity, whether the building shall have spec-ial accommodations for manual train-ing and the capacity of the accom-modations; whether the building is in-terested in heating plant or whether it shall contain accommo-dations for a swimming pool or any other athletic sports, whether it shall be separate from or have connection with the high school building; whether toilet rooms shall be in the basement or on each floor for the persons on that floor; whether it shall house the kindergarten, high school, and other special accom-modations, and such other general features as our experi-ence suggests to us as desirable.

With a general outline of this sort, I recommend that by some fair meth-od of a number, whether five or seven or ten, architects, or firms or archi-tects, together with all local architects, be invited to submit plans and speci-fications, with elevations and sur-ficient detail to give an accurate ex-hibit of what the building will be pos-sibly, the building plans may be worked out later, and that they be a specified sum, each, the eleva-tions, plans and specifications, and thereby become the property of the Board of Education. They should bear the distinguishing name of the maker or described by the maker. The call for plans should require that they be submitted on the same kind of draughting material and securely enclosed in the same sort of wrap-pers.

The next step would be for the Board to invite a board of three or five competent persons known to the board until the decision shall have been reached, be they archi-tects, artists or school men to review the plans and verify the calculations and meet with the Board and advise the Board of the merits of the plans, which from their standpoint, as ex-perts, is the preferable set of plans. The Board can then decide which set to accept and the maker of them will be the architect or contractor. A thousand or three thousand dollars, a supervising architect, as desired. This expenditure of five hundred or a thousand dollars would eliminate in such preliminary work would be well worth while and would elimi-nate the danger of adopting plans and specifications through a liking for the maker of the plans, rather than be-cause the plans commend themselves. When the building, now a ruin, was erected, and during the progress of erecting a change was made in the location of a chimney as near as I re-call the report in the paper at the time and \$200 was allowed the con-tractor. The previous expenditure of any reasonable sum to secure a thor-ough and complete plan would be worth while.

Such expenditure would, also, give the Board the advantage of the best impersonal expert knowledge. At the same time the Board would nei-ther shirk responsibility nor lose con-trol of the situation.

Local talent would not, by that plan, be excluded. Local architects would thus be invited to submit plans and this they could do on their own account or in connection with chosen correspondents and take their chance with others and upon the same in-dependence terms.

Your president is not claiming origi-nality in this suggesting what he be-lieves is important. About twenty years ago his attention was called to this method by the fact that the Im-migration Building on Ellis Island was planned and constructed in this way by the U. S. Government. The Government has used this plan on various occasions, particularly where art and architecture are involved. If care is exercised, so that no personal favoritism enters in, the best results may be obtained in this way.

Your attention is called to the fact that the architects who are skilled in managing boards of education are standing attention. Your president has been interviewed as to the best method by which to get in touch with the situation and has frankly an-swered the inquiries. There has been nothing sinister in this on the part of the architects. So far as could be discerned the inquirer seemed to think that some burrah boys method would be successful, if it only knew the right persons. But it will be wise for you as a board to adopt some plan of action which will enable you to come only under the spell of the right architecture. Some plan by which you can keep control and have the benefit of the very best expert knowledge, you can do this by taking the ini-tiative.

An architect was looking over the ground last week suggested, when advised by your president that some such plan might be followed, that it would be unnecessary to pay for plans submitted. He thought, or at least he said, that architects would be ready enough to take the chance, of a very poor result. The result of a wholly open competition would be that the venturesome would take the chances. On such a plan we would be likely to have small choice and that not among the best. We can easily see who are the best, and we owe it to local architects to give them an opportunity to compete. We owe it to ourselves to have the best, and we choose from among them as we shall see fit. The dignity of the occasion justifies us in expending whatever reasonable sum shall be necessary to secure to the District the most beautiful and appropriate building practicable.

Your president has evaded as much work belonging to the Board as he could, having necessarily, consider-able detail work breaking in upon his time. But in connection with aiding just the best possible result in this matter of a new high school building he will assume all the re-sponsibility and do all the detail work, and all the time hold itself above the plane of the personal element. It was adopted as the sense of the board.

Meber Pierson said she heartily con-curred in the sense of the board, except that it might be justice to each architect to be present and point out the defects of the plans, and to have in his plan. The president, superin-tendent and Members Black, Hopper and Pierson were made a special committee to prepare a working plan carrying out the suggestions of the board.

Engineer Wood and janitor Fernan-des were employed during the vaca-tion to do such work as would come in their line.

The matter of heating the David Prince building next winter was discussed and it was suggested that the new high school building should not have the heating plant under it, but that a separate building should be con-structed and that to that end it would be very desirable to have the heating plant located from Fayette to Prairie and Koscisko from State to Jordan and the president was made the in-vestigator of the matter and report.

It was suggested that a master key which would unlock all the doors of the building should be in the pos-session of the superintendent and members of the board; no ad-mission of the building should be in the present system was urged.

Supt. Perrin suggested a change in the rule regarding the admission of the first grade and it was made a rule that pupils be not admitted to the first grade except at the beginning of a semester or within a month from that time.

Supt. Perrin said it was evident that the David Prince building would have to be used as at present during all or a greater part of next year, and to that end some different arrangements, increase of accommodations, etc., should be arranged for and the super-intendent and buildings and grounds committee were instructed to investi-gate the matter and report at next meeting.

MONEY COMING IN FOR SALVATION ARMY

Several County Precincts Have Al-ready Completed Their Quotas—People Seem Willing to Con-tribute.

Rev. W. E. Spooner, chairman of the general finance committee for war activity in Morgan county, said yesterday that money is com-ing easily for the Salvation Army fund. Reports were in from Con-cord, Lynville, Woodson and Chapin indicating that their al-lotments from these precincts have already been raised. A meet-ing was held in Literberry last night for organization purposes and it is quite probable that money has been collected in other county precincts and not yet reported.

The work that the Salvation Army is doing in the army huts ministering to thousands of sol-diers is so well known that the people seem to be ready and willing to pay the sum asked. The county allotment is \$5,000 and the ex-pectation is to have the entire amount raised by tomorrow. Tonight at 7:30 at the Y. M. C. A. the work-ers on the various teams are re-ported to meet for conference and report. It is important for mem-bers of the general committee and of the various teams to be present.

CARD OF THANKS.

We wish to thank our friends, neighbors and all, who so kindly assisted us at the time of our be-reavement in the death of our darling baby. Also for the beau-tiful flowers.

MEETING TODAY

The Westminster Missionary society will meet with Miss Edith Askew on Grove street this after-noon at 4 o'clock instead of 3 as previously announced.

Mrs. T. J. Simons and chil-dren are guests at the home of Mr. and Mrs. W. B. Rogers on West College avenue. Mrs. Simons is a sister of Mr. Rogers.

From Jacksonville she will go to Miller, S. Dakota, where her hus-band, Rev. Thomas J. Simons, has recently taken the pastorate of the Presbyterian church. He has been for a number of years at Blufftown and goes to a church with much larger salary and re-sponsibility.

Dr. and Mrs. H. S. Layman of Springfield spent the week end with Judge and Mrs. M. T. Lay-man at their home on West Col-lege avenue. Dr. Layman is a cousin of Judge Layman.

Mr. and Mrs. Cyrus M. Wright of Murrayville called on a number of their Jacksonville friends yesterday.

Mrs. Ben Keochel and Miss Lottie Nunes of Navo, Ill., are in the city called here by the death of their brother, Melvin Nunes.

PREPARING FOR THE RED CROSS DRIVE

Scott County Will Be Thoroughly Can-vased—Winchester School Pu-pils to Give Play.

Winchester, May 13. — Arch Boylan returned Saturday to Chi-cago after a short visit with rela-tives here.

Mr. and Mrs. Curtis Johnson of St. Louis are visiting relatives in Winchester.

George Thomas underwent an operation at Missouri Baptist hos-pital in St. Louis Friday. His wife and brother, Claude Thomas, ac-companied him to St. Louis.

Hiram Ellis of White Hall vis-ited relatives and friends here Sunday.

Mrs. M. T. Lashmet, daughter Miss Loretta and son Edwin, vis-ited relatives in Jacksonville Sun-day.

Three young men left here Sat-urday morning under the call for men to Ft. Thomas, Ky. They were Harvey Bunch, California; Leo Smith, Naples, and Melvin A. Worrell, Manchester.

Mrs. Fannie Markkille arrived from Jacksonville Sunday to visit her sisters, the Misses Estes, and Mrs. Ada Lankford.

Mrs. D. K. Peters and little daughter returned Sunday to their home in Ft. Madison, Iowa, after a visit with Mr. and Mrs. Ralph Lankford.

The juniors will give their an-nual play Friday night at the Lyric theatre, entitled, "The Ama-zon." A lecture will be given Wednesday night at the Methodist church by Harry L. Southwick under the auspices of the senior class of the high school, for the benefit of the Red Cross.

Dale Owings arrived Sunday morning from Galesburg for a short visit with his parents here.

Rev. Donald Gates of Spring-field filled the pulpit of the Pres-byterian church here Sunday morning and evening. His wife and little daughter accompanied him.

Rev. W. R. Johnson will start the Red Cross drive here next week. Four minute men are mak-ing addresses daily before audi-ences at the Lyric theatre. Cecil Hamilton spoke at the Lyric Sat-urday night and Fritz Haskell Monday night. In his address of Monday night Mr. Haskell stated that possibly it might not be gen-erally known that 200 boys from Scott county are now in the na-tion's military service. The Red Cross quota for Scott county is \$10,000. They are 1850 Red Cross members in the county and Mr. Haskell stated that each should feel personally responsi-ble for the success of the drive.

Dr. and Mrs. Walters of Spring-field have rented the property of Miss Mary Woodall on Main street and expect to make Win-chester their future home.

Social Events

Annual May Party at Home.

The annual May party was given at the Old People's home Monday evening by Philathea circle of Central Christian church and the following program given:

Miss Beatrice Dye gave several piano solos, Miss Fern Daigh a number of vocal solos, Miss Mag-gie Boston a ready from Riley. Miss Helen Harney also favored the company with several read-ings. Miss Edith Hitchens ren-dered a piano solo and all joined in singing patriotic songs. Rev. M. L. Pontius gave a talk on camp life. Two members of the home, Mrs. Hoffman and Miss Green, both over ninety years of age, then favored the company with a duet, "What are the Wild Waves Say-ing?" Those present then ad-journed to the dining room, which had been artistically decorated in the national colors, where dainty refreshments were served.

Hold Their Final Meeting of Season.

The College Hill club held their final meeting of the season with Mrs. H. H. Hall Monday after-noon. Mrs. H. M. Haverhill was the leader and her subject was, "The Present Civilization and Fu-ture Possibilities of Mexico." The program for the coming year will be "The Study of Our Allies."

FUNERALS

Hart.

SNAPPY SHORTS ON "THE DANGER GAME"

Popular Tom Moore, whose work with Mae Marsh and Mabel Normand in Goldwyn produc-tions has won high prize every-where makes his debut in the cast of a Madge Kennedy play in "The Danger Game." There is an amusing story in connection therewith. Both Mae and Mabel sought to have Tom play oppo-site them again in their new plays, while Miss Kennedy con-tended she was entitled to his services. Finally the three stars decided to abide by the decision of chance, so a drawing was held. Madge Kennedy won, pull-ing the shortest of three straws from the hand of a neutral studio caller. As a result Tom Moore plays Jimmie Gilpin in "The Danger Game," which will be shown at the Grand Opera house for two days starting with mat-inee this afternoon.

DR. WHEELER HEARD IN PATRIOTIC ADDRESS

Pointed Review of the War Shows Why Victory Must Come to Allies—Salvation Army Does Great Work.

At the opera house Sunday afternoon Dr. William Wheeler made a patriotic address particularly in support of the Salvation Army work. The audience present completely filled the house and the address proved to be a splendid review of the war and a clear statement of the work which the Salvation Army is doing at the battle front. M. F. Dunlap called the assemblage to order and spoke briefly of the war time spirit and demands of the audience with the opera house orchestra leading, joined in singing America and the invocation was pronounced by Rev. A. A. Todd.

Then Mr. Dunlap introduced Rev. W. E. Spoons to preside during the session. The minister talked very briefly and explained the reasons that had brought the company together. Dr. Wheeler, whose home is in Evanston, is going about from city to city making patriotic addresses in the direction of the national council of defense. He has made a thorough study of the war situation and is well versed in the whole subject. At the conclusion of his address he made an appeal for pledges toward the Salvation Army fund and subscriptions to the amount of \$600 were taken.

The Brave Belgium People

The speaker referred to the events which immediately preceded the beginning of the war and paid a special and marked tribute to the Belgian people who with a brave soldiery of but 53,000 stopped the progress of the Huns and by that very act saved liberty. Dr. Wheeler said that the German idea had been Belgium, then Paris, quickly followed by an attack upon England and that our turn would have come. He went on to say that the only language the kaiser understands is that of the sword. While the war was occasioned by the death of the heir to the Austrian throne, the real cause was Germany's desire to occupy a larger place in the sun and to control the world. He then traced the difference between Germany's status before the war began and the present, showing how the plan of the kaiser had miscarried. In his unequivocal denunciation of Germany the speaker made it clear that he was not talking about the German people—those of them who love democracy—but rather was talking about Prussianism. He said that one of the miscalculations made by the kaiser was with reference to Great Britain, for whereas Germany expected the colonies of Great Britain to melt away, instead they had valiantly come forward with support and that 430,000 people of Great Britain and her colonies are arrayed upon the side of liberty.

The Debt to Great Britain.

"If it had not been for Great Britain's fleet which has patrolled the North Sea for the past 44 months, the history of this war would have been different. It is to that navy that we owe a great debt today, for they have kept the German navy from attacking us. The debt of the U. S. to France was contracted long ago when in the war for freedom France came to the rescue of the colonies with \$50,000,000 of money, 38 battleships and 7,500 men. Congress at that time declared that we would never desert France if the time to aid ever come, and we never will. We must fight Germany because of perfidy and intrigue, because of the effort that country has made to turn other countries against us, because Bernstorff, while ostensibly our friend, was fomenting plots. Germany is the thief among nations and has arisen to her present power by force from time to time acquiring property of others and keeping it. It was said long ago that Prussians were not born but were hatched from cannonballs, and history bears this out.

Peace Unthinkable Now.

"Peace today is unthinkable because it must be upon German terms for during the progress of this war Germany has lost nothing but blood and has acquired vast territory of Rumania, Bulgaria, Serbia, parts of Belgium and France, has stolen billions of treasure which has been carried back into its own lines. Germany has not only taken treasure but it has taken peoples and thrust them into slavery. We must fight Germany because of that country's war upon womanhood. The kaiser urged his soldiers to make war so terrible that the people would remember them for a thousand years with terror and these soldiers have carried out their orders. The U. S. fights for womanhood and when the boys in khaki reach Berlin they will see to the people of some of the European countries as the sons of God as compared with the hordes formerly attacking them.

"Germany is the assassin among nations and its history in this war has been one of gross brute force, murder; and we today can find the spirit of prophecy in the words of the German officer who just before he died in a Red Cross hospital where he had been carefully nurtured for weeks, said 'Either God is dead or Germany is doomed.' Today we know that God reigns in heaven and that the end of kaiserism is but the question of time."

WATER BOND ORDINANCE BEFORE CITY COUNCIL

Measure Given First Reading Monday—Provides for Joint Responsibility with Citizens Committee—Contract for Concrete Walks Let.

At the meeting of the city council Monday morning some time was spent in the discussion of the proposed laying of concrete walks. Some time since a foot of streets was advertised to pay attention to the city's notices to lay walks. Bids were asked for and the lowest was that filed by Roy Fernandes. The council yesterday decided to award the contract for these sidewalks to Roy Fernandes.

A bid was also received from Mr. Fernandes for a second lot of walks, this bid being 15c per foot, with a proviso that property owners who paid without having the matter go thru the hands of the sheriff, would be accorded a price of 12c a foot. It was decided to award Mr. Fernandes contracts in both cases, he to give satisfactory bond for the work. Simeon Fernandes who was present at the council meeting, indicated that he intended to furnish the bond for his son.

Reports from departments were presented but were of an informal kind. Mr. Martin referred to the fact that the department had great difficulty in reaching South Main street now with fire apparatus as a portion of the street is practically impassable. Mayor Rodgers said that he had the promise of the contractor and the light company that conditions would be speedily improved there.

Water Bond Election Ordinance.

The ordinance calling an election for the issuance of \$75,000 for the extension of the water department was given a first reading. This ordinance provides for the construction of a reservoir and filtration plant located at the south side pumping station, to be paid for by issuance of \$75,000 of improvement bonds. The bonds proposed are 60 in number of \$1,000 each and 20 of \$750 each, to be dated July 1, 1918, bearing interest at the rate of 5 per cent per annum, payable semi-annually. \$3750 of the bonds is to be due on the first day of July in each year of the years 1919 to 1933 inclusive.

The bonds and coupons are particularly described and it is specifically set forth that all expenditures in connection with the improvement shall be under direction of the joint committee of citizens and the city council. It is further provided that money received from water from the water department shall be kept in a separate fund and that the proceeds shall be used for paying the operation of the department, for the payment of the bonds and for the further development of the property. Sections from the ordinance covering these points read as follows:

Section 3. That, for the purpose of providing for the payment of principal and interest of the bonds thereby authorized to be issued as they, respectively, become due, there shall be, and there is hereby levied, and there shall be collected a direct annual tax upon all the taxable property within the city of Jacksonville, Illinois, sufficient to produce the following sums for each of the following years:

1919\$7,500.00
19207,312.50
19217,125.00
19226,937.50
19236,750.00
19246,562.50
19256,375.00
19266,187.50
19276,000.00
19285,812.50
19295,625.00
19305,437.50
19315,250.00
19325,062.50
19334,875.00
19344,687.50
19354,500.00
19364,312.50
19374,125.00
19383,937.50

That provisions for meeting the requirements of this section shall be included in the annual appropriation bill in each of the years aforesaid, and the city of Jacksonville hereby obligates itself, annually in due time, manner and season to perform and take all action required by law to carry out the provisions of this section.

Section 4. The fund derived from the sale of the bonds herein contemplated shall be used for the purpose of constructing an impounding reservoir and filtration plant on the south fork of the Mauvalsterre creek near the pumping station where the same is now located, in accordance with the plans and specifications are being prepared under the direction of the city council if the city of Jacksonville and a committee of citizens heretofore selected to act with the city council of the city of Jacksonville, and which committee of citizens was, by resolution of the city council of the city of Jacksonville, on the 29th day of April, 1918, requested to cooperate with the city council of the city of Jacksonville in the perfecting of the proposed improvement, with equal power to vote with the commissioners on all plans and contracts for the same; that the funds derived from the sale of the bonds herein contemplated shall not be used for any other purpose than that of contemplating the proposed improvement as herein contemplated.

Section 5. After the completion of the proposed improvement to the water system of the

city of Jacksonville, as herein contemplated, all the income received by the city of Jacksonville from such water works system, from the payment and collection of water taxes, rents or rates, shall be kept in a separate fund and shall first be applied in the payment and discharge of the water interest on bonds or money borrowed, and used in the erection, construction and betterment of said water works system as herein contemplated; and running expenses thereof; that after the payment of the running expenses of the water works system of the city of Jacksonville and the interest on the bonds therein contemplated to be issued, any surplus which may remain shall be converted into a sinking fund, for the purpose of paying the bonds therein contemplated to be issued as they from time to time mature.

Section 6. The bonds hereby authorized shall be issued and sold from time to time, as the proceeds are needed for the purpose authorized by this ordinance; but the same shall not be sold at a price less than the par value, plus accrued interest at the time of selling said bonds.

Section 7. The bonds authorized by this ordinance are not to be issued unless this ordinance is approved by a majority of the legal voters of the city of Jacksonville voting at a special election to be called for the purpose of approving this ordinance, which said special election shall be held and is hereby called to be held in the city of Jacksonville, Illinois, on the 18th day of June, 1918.

FUNERALS

Nunes.
Funeral services for Melvin Eugene Nunes were held from the residence of Mr. and Mrs. John Nunes, 1123 Allen avenue Monday afternoon at 3 o'clock in charge of the Rev. A. A. Todd and the Rev. FEW DROPS AND CORN LIFTS OUT

Says there is no excuse for cutting corners and inviting lockjaw.

Sore corns, hard corns, soft corns or any kind of a corn can harmlessly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezeone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezeone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This simple drug, while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.—Adv.

YOUNG PEOPLE URGED TO CONTINUE STUDIES

State Council of Defense Co-operates With Educational Institutions of State in Campaign to Encourage Young to Attend Schools and Colleges.

Mention has already been made of the special effort that is being made by the educational institutions of the state to impress upon young people the special need there is for attendance at schools and colleges now on account of the war. The state council of defense issued the following special bulletin on this subject of education, this week, May 11 to 18, being devoted especially to the cause of education. The letter reads as follows:

Subject—Education Week, May 11th to 18th inclusive. The State Council of Defense in co-operation with the Educational Institutions of the state desires that during the week from May 11th to May 18th inclusive an active campaign shall be carried on in all of the schools of the state and secondary grade schools to encourage the young people to continue their studies until such time as the Government shall call for their services.

President Wilson has said: "I would particularly urge upon the young people who are leaving our high schools that as many of them as can do so avail themselves this year of opportunities offered by the colleges and technical schools to the end that the country may not lack an adequate supply of trained men and women."

The same idea has been expressed by Secretary Baker and Secretary Daniels and by the Commissioner of Education, Claxton.

The State Council of Defense, therefore, urges all of the members of its organization in each county to take such steps as may be necessary to have speakers address all of the schools of high school grade in the county upon this subject during the week above mentioned.

Speakers are being assigned by practically all of the colleges of the state to assist in this campaign, and Chairman of the Neighborhood Committee in your county will be advised as to details.

If it can be arranged with the Superintendents and Principals of schools in your county to invite the parents to attend these meetings it will be most desirable. The Bulletin should be brought to the attention of the Parent-Teachers' Association and to the pastors of the local churches in your locality.

Please give this Bulletin as wide publicity in your county press as possible.

State Council of Defense
Samuel Insull,
Chairman.

Solo, "Stars in the Valley"—Mrs. E. O. Hess.

Sermon, Rev. F. T. Peters.

Closing song, "The Star Spangled Banner."

The Red Cross auction held Saturday for the benefit of the local chapter, was a decided success. Donations were many and varied. The unfavorable weather conditions prevailed, the attendance was very good and people responded liberally to the cause. Practically \$2,000 will be realized from the auction.

A Belgian coin, donated by Rev. Harry Wooding, former minister here sold for \$23, while its actual monetary value in American money is one tenth of a cent. Other articles sold in like proportion. Col. Linnie Coacher, and Col. Stanley Day, auctioneered the sale and E. E. Rousey, N. M. Caldwell and Ira Clark were the clerks.

Mrs. Alice Hitch and daughter Ruby and Mrs. Leach of Drake, spent Saturday with Mrs. Ella Watt and family.

Mr. and Mrs. Guy Brown spent Monday in Jacksonville.

Mrs. Clara Crouse of Marysville spent Monday at the home of Mr. and Mrs. J. C. Andras, Jr.

E. A. Knight of White Hall spent Monday with Mr. and Mrs. L. H. Langdon.

Mr. and Mrs. Jesse Woodall and son Warner of Winchester vicinity were visitors Monday at the home of Mr. and Mrs. Charles Woodall.

Mrs. L. F. O'Donnell who has been ill for several weeks at her home on South Diamond street, is now improving steadily. Her sister-in-law, Miss Nona O'Donnell, is here from Springfield to spend a number of days.

FLAG SERVICES AT MT. EMORY CHURCH

Services Appropriate to Dedication are Carried Out—First Negro Church in State to Dedicate Service Flag.

At Mt. Emory Baptist church Sunday evening a service flag was received by the church and dedicated with appropriate ceremonies. The flag contains four stars and was presented by the Dorcas Sewing circle and the presentation speech was made by Mrs. Noanna Watson. The address was to have been made by Mrs. Pauline Moore but illness prevented. The program follows:

Vocal solo, Tell Mother I'll Be There—Mrs. Wilbur Boyd.

Paper, Mother—Mrs. F. C. Muse.

Original poem, Our Departed Mother—Miss Susie Lynch.

Vocal solo, Mother's Prayer—Miss Addison Swar.

Presentation of Service Flag—Mrs. Noanna Watson.

Acceptance at dedication speech—Rev. E. L. Scruggs.

Battle Hymn of the Republic—Congregation.

Mrs. F. C. Muse in presenting her subject, "Mother" said in part:

"In the heavens above the angels whispering to one another,

Can find among

Their burning terms of love

None so devotional as that of Mother."

—Poe.

To mother, uncrowned queen,

We consecrate this day; the mother

to whom we owe all that we

are or hope to be; whom from

our earliest infancy guided our

childish footsteps; at whose knee

we learned to lip "Now I lay

me down to sleep, I pray the Lord

my soul to keep;" the mother who

nursed us thru the many ailments

peculiar to growing children—

and when older grown, gave counsel

and advice—pointed out the

many pitfalls awaiting as we

crossed the threshold of manhood

and womanhood and cautioned

"Beware."

Be she black or white, rich or

poor—whether she resides in a

mansions bedecked with silk and

jewels, or in a lowly cottage; in

this one governing characteristic

their hearts beat in unison.

Thru nation wide observance of

this day some inner conscience, as

we unfold the pages of memory

will cause countless thousands of

letters to be written back home

to cheer and gladden mother's

heart; mother who remembers her

boy or girl in her prayers night

after night. How truly symbols

of mother love and anxiety is

the song: "Where is My Wandering

Boy Tonight?" When sleep

descends and wraps the world in

slumber many a mother's pillow

is wet with tears as she asks herself

this question.

With mother love as an incentive

let us assume a more forgiving

attitude; let us not be so

quick to condemn; when we see

one who is sunken and forsaken,

thoughtless and wild, and

regretful, he or she is some mother's

child. Where is the last observance

of this day the mothers of the

nation have been called upon to

face a most trying ordeal—to

sacrifice her boy in her country's

defense. When our boys leave

for war only one picture is presented

to the public view; that of the

band playing a rollicking popular

air—the crowds—the roar of the

train—the friendly goodbyes.

But another picture arises before

the service flag in the window, the vacant chair at the table,

MORGAN COUNTY HISTORICAL EXHIBIT

Plans Made by Morgan County Historical Association for a Good Centennial Exhibit.

One of the most interesting features of the Morgan County Centennial celebration is the exhibit of old furniture, maps, books, flags, swords and all rather unusual articles used one hundred years ago, such as fire pans and sand boxes instead of blotting pads.

The committee which has the work in charge would like to get a really significant collection of historical material together and for that reason during the next two or three weeks they are anxious to get listed all the material which is available that is of interest from the standpoint of Illinois history. If the lists are carefully prepared duplication in the exhibit can be avoided and a selection made that will have a real importance in the understanding of Illinois history.

The committee would like to know about early maps, old books about Illinois, papers that would be of interest to students of Illinois history, flags and swords. They would like to get enough old furniture to actually furnish a room as it would have been one hundred years ago.

With the co-operation of all the persons who have these old things, a fine exhibit can doubtless be arranged. A room in the Public Library will probably be given over to this exhibit and as that is a fire proof building and as cases will be provided for small articles, people will not feel any hesitation about loaning these historical things to the Morgan County Historical Association.

An effort is to be made to have the exhibit ready by the Fourth of July.

Anybody who has material that would be useful for such a patriotic historical exhibit as is being planned, is asked to leave word about it at the Public Library or to notify any member of the committee.

The committee appointed by Dr. Rammelkamp to undertake this work consists of:

Mr. Ensley Moore.
Mrs. T. J. Pitner.
Mr. Thomas Worthington.
Mrs. W. T. Capps.
Miss Anne Jackson.
Dr. George W. Miller.
Mrs. Mary Carriel.
Miss Lucy Ball.
Miss L. M. Barrette.

Y. M. C. A. CAMPAIGN MOVES SLOWLY ALONG

Subscriptions Now Total Over \$7,000 and Committee Will Keep on Until Quota is Secured.

The Y. M. C. A. campaign for \$8,000 is not yet concluded but the teams will continue their work this week and there is a definite determination to clear up this amount. Reports for the past week were made at supper given last night at the Christian church. The team reports were made which brought the total to a little more than \$7,000.

Rev. M. L. Pontius presided at this meeting and brief talks were made by M. F. Dunlap, Charles Fiedler, W. G. Goshel, Fletcher Hopper, C. B. Graff, Mrs. O. E. Tandy, Leroy T. Potter, John J. Reeve and E. B. Spink. The teams of which Mr. Graff, Mr. Fiedler and Mr. Reeve have been serving as captain, are within a very few dollars of their quotas. However, it was the avowed intention of the various workers last night to "see this thing thru" and additional soliciting will be done this week, although in a manner to interfere with the Salvation Army campaign.

Our wrist watches for soldiers are good and cheap.
Russell & Thompson.

I. W. C. PAGEANT WILL BE HELD TODAY

The Woman's college pageant was postponed from Monday afternoon to this afternoon (today) on account of rain. The time for the opening of the pageant is set for 5 o'clock. The announcement was made in the Courier Monday that the hour would be 4:30, but it has been put half an hour later out of deference to Mrs. T. J. Pitner and the visiting women of the state federation of women's clubs, so that they may have the opportunity to attend.

D. A. R. TABLET LOCATED

The mystery of the disappearance of the D. A. R. tablet from the front of the court house was explained Monday by Deputy Sheriff Howard Wannamaker after he had done a little "sleuthing" on his own account. The facts are that Miss Effie Epier, representing the D. A. R., authorized the temporary removal of the tablet while some work is being done by G. A. Sieber. The tablet is at his establishment and will be replaced before many days.

Miss Epier, who conducted the painstaking work of investigation necessary in securing the names for the tablet, has also found the following as entitled to a place upon the tablet: Augustus Sim, John Thompson, Job Jenkins and Edmund Stokes. A separate tablet is being prepared which will be appropriately placed adjoining the larger one. Both will be in position at an early date. It is interesting to note that no other county except Sangamon has so large a number of Revolutionary heroes buried within its borders.
